

LEADERSHIP DEVELOPMENT INTENSIVE

REVOLUTIONISE YOUR ABILITY TO LEAD YOURSELF, YOUR TEAM, AND YOUR ORGANISATION

"For me personally the LDI has been life-changing. For us as an executive team I cannot imagine a more rewarding or beneficial experience. The progress we made as a team over a mere three days is difficult to articulate. The learnings have stuck, and I recognise the change that has occurred across the team in every discussion we have."

About This Programme

The Leadership Development Intensive (LDI) is a four day full immersion residential programme, designed to help you step more fully into your leadership capability. Many describe it as a 'transformational process' and a profoundly life-altering experience. You will leave the LDI with a highly developed awareness of your innate leadership potential, plus the skills to switch from an 'automatic' way of living and leading, to one that is more authentic and purposeful.

This is a world class leadership programme that has been honed over the last 30 years with leaders across 42 countries. The LDI will significantly impact how you lead yourself and those around you, creating seismic shifts, while challenging and stretching you like nothing else you have experienced.

The LDI Will Enable You To

- Turn your work into a powerful vehicle for lifelong personal and leadership development
- Build on your strengths, but also explore your weaknesses, transforming them into a rich untapped source of leadership potential
- Become radically self-aware, and bring the best of who you are to everything you do
- Unhook yourself from counterproductive patterns and behaviours that keep you stuck in unhelpful habits, conflict, or impasse
- Discover or reignite your sense of purpose and passion
- Deeply embed the learning through experiential exercises and a comprehensive post-course follow-up process
- Maintain a calmer, more confident and balanced presence, even when the pressure is on

Where did the LDI come from?

The LDI was designed by Organisation Development Specialist, Dr John Scherer, and is based on his best selling book 'Five Questions that Change Everything'. John is known internationally as a living expert on the deep development of leaders. For more information about John and his body of work, visit www.scherercenter.com

Core Leadership has a strategic alliance with the Scherer Leadership Centre, and is also part of an international network of Associates at the forefront of transformative approaches to leadership development, organisation development and change facilitation.

The LDI has been, and continues to be adapted in New Zealand to meet the needs of leaders in our part of the world. Core Leadership is the only organisation offering this unique programme in Australasia.

Pre and Post Work

Aligning the LDI with a comprehensive pre and post-course process not only creates a richer experience, but also cements the long-term benefits of your investment.

Pre-course: You will receive a pre-course questionnaire, and also a one-on-one coaching call from one of the Facilitators. This enables you to focus your intentions, and us to understand your key challenges and desired outcomes.

Post-course: Following the LDI there is a series of weekly conference calls with your LDI Facilitators and colleagues, plus the option of one-on-one coaching with one of our Facilitators.

Spouses and Life Partners

Changing old patterns, habits and belief systems is challenging. The ability to make and then embed these changes is greatly enhanced by having your partner do the work alongside you. Attending the LDI together will allow you to get to know and understand each other more deeply, and to become committed coaches to each other's ongoing development.

In-house Option

The LDI can be customised for an internal leadership group of six or more people at a specially discounted rate, and at a venue that suits your location. Please contact us for more information.

Executive LDI

Once a year we offer an LDI exclusively for Chief Executives, Managing Directors, and their direct reports. This is an opportunity to discuss in absolute confidence the challenges unique to those who sit at the very top level of an organisation, and offers senior executives the chance to network with other high-level thinkers and influencers. Contact us to discuss pricing and details.

LDI Programme Director

Robyn Wynne-Lewis founded Core Leadership in 2002, with a vision to develop leaders who were integrated in body, mind, emotions and spirit.

Robyn takes responsibility for the training and development of LDI Facilitators at Core, and for the quality of the programme. She brings to this role nearly twenty years of experience facilitating the LDI herself, and working with business leaders as a consultant, trainer, facilitator and coach.

"I believe that the challenges that lie at the core of personal effectiveness are also the challenges that lie at the core of leadership effectiveness. When individuals and teams are willing to face these challenges together, the ripple effects within an organisation can be game-changing for everybody."

LDI Facilitators

Each LDI is facilitated by a team consisting of at least one male and one female Lead Facilitator.

LDI Participants consistently rate our programme leaders as outstanding, not only for their ability to present material, but for their skill as coaches, their sense of humour, deep caring and empathy, and for the way they role-model what they teach.

LDI Facilitator profiles can be found on our website.

Venue Details

The LDI is traditionally held at Wallingford Homestead near Waipukurau, Central Hawke's Bay. One of New Zealand's historic homes, Wallingford provides the perfect backdrop for a residential retreat and is situated approximately 90 minutes drive from both Napier, and Palmerston North.
